

At a time when we are all concerned with heightened security, here's how you can help!

### People

Carry this card with your cell phone. If you see something suspicious, use the A-L-E-R-T-S format to report it.

### Businesses

Just make the cards available to your employees and customers! *No cost or Obligation!*

*Cards are available at City Hall, the Sierra Vista Police Department, and many fine businesses within Sierra Vista.*

**These cards explain how to effectively report what you see!!**

The best way to prevent a terrorist attack is by having thousands of citizens use their cell phones as Information Age weapons to report suspicious activity to the proper authorities. Brave citizens who can clearly report the details of the situation can help authorities send the right emergency response teams to the right places.
